

Building Envelope Council Ottawa Region

## Lunch and Learn Technical Seminar

Wednesday, October 26, 2016

12:00 (noon) – 2:30 pm

Sala San Marco, 215 Preston Street, Ottawa, Ontario

Da Vinci Room (downstairs - stair access only, no elevator)

## ***Sustainable Cladding Choice: Equates to High-Performance Building Envelope***

Exterior insulation and finish systems (EIFS) are in an ideal position to respond to the requirements of many sustainability programs becoming more prevalent in society. Specific features of these cladding assemblies add to the value proposition in terms of sustainable construction. To be part of a sustainable construction we need to consider numerous variables related to building lifecycle such as; long-term durability, energy efficiency, reuse and resource conservation, to name a few. This presentation will review the above variables as well as several performance characteristics of exterior walls as they relate to EIFS. This presentation will also review the impact that EIFS assemblies can have on the renewal of existing housing stock and the potential for energy savings vs other cladding options, as well as provide an overview of the many programs which exist to provide support for the renovation and retrofit of the Canadian housing stock.

**Amanda Sinnige** has worked in the field of building science for the past 25 years, concentrating her efforts on the energy performance of buildings, sustainable construction and renewable energy and the impact of these on the performance of the building envelope. She joined Dryvit Systems Canada in 2015 as Manager of Technical Services.

<b>Seminar fees</b>		
<b>Premium Corporate</b>	<b>Individual and Corporate Members</b>	<b>Non-Members</b>
Free	\$30.97 + \$4.03 (HST) = \$35.00	\$53.10 + \$6.90 (HST) = \$60.00

**Visit [BECOR@goldenplanners.ca](mailto:BECOR@goldenplanners.ca) to register on-line for this event**

**We respectfully request that you register for this seminar no later than**

**Tuesday, October 25th, 2016 at 2 pm.**

**Please note that no refunds will be provided after this date.**

This seminar is Eligible for 1 hour of ConEd Credits for OAA Members
