Return to In-Person Sessions & Annual General Meeting

With COVID being declared a pandemic in March 2020, BECOR's last in-person session was held on Wednesday, March 11, 2020, with that event being our very successful full-day conference related to the Renovation and Restoration of Historic Masonry Buildings.

Now, with restrictions lifting and COVID (maybe) reducing in severity, BECOR is (tentatively) planning to return to in-person sessions in May. For this session on May 18, we will return to our previous approach of hosting the session at the Sala San Marco, with networking and lunch from noon to 1 PM, a presentation from 1:00 until 2:00 or so, then about 15 minutes for the AGM.

The AGM can be attended by any member who wishes to participate, including anybody who cannot make the Lunch & Learn session but wishes to attend the AGM afterwards. This AGM will be for BECOR's 2020/21 fiscal year, since various things have caused us to fall behind schedule on this item.

The AGM will consist of an overview of recent BECOR events and developments, a summary of 2022/23 plans, a review of 2020/21 financials, an explanation of new regulations which will affect new BECOR By-laws, and a vote (or acclimation) for Board members. If you would like to volunteer for the Board of Directors, please email Steve Laviolette, at slaviolette@patersongroup.ca.

Note: If needed, the May session and AGM will revert to online delivery.

(This notice is being issued now, in spite of uncertainty, to give the required 30-day notice of AGM)
