

Building Envelope Council Ottawa Region

On-Line Technical Seminar – Wednesday, February 15, 2022, 12:00 PM

\*\*\*\*\*

## Updates to the National Building Code of Canada

With the recently signed Construction Codes Reconciliation Agreement, the provinces and territories have promised to harmonize with the national model codes (i.e. National Building Code, National Energy Code, etc.) in a timely manner, which means it has never been more important to maintain awareness of the changes that are considered and introduced in the Code Development System.

The 2020 NBC and 2020 NECB introduced some impactful changes to code requirements on fire protection, energy efficiency, and much more. Arguably, the largest change was the introduction of tiered performance and prescriptive energy compliance paths to target Canada’s emissions reduction plan for 2030.

The Code Development System is always keen on involving more volunteers, and joining most meetings is as simple as signing up and downloading the meeting agenda.

### Nicholas Gazo

Technical Advisor, Codes Canada

National Research Council Canada / Government of Canada

**Register Online Below**

Seminar fees	Premium Corporate	Individual and Corporate Members	Non-Members
<b>Please Register By Noon on Tuesday, February 14, 2023.</b>	Free (with numbers limit)	\$28.00 (includes HST)	\$45.00 (includes HST)

**Thank you to Morrison Hershfield for hosting and recording our online sessions.**

**Thanks also goes to Ontario Construction News, for partnering with BECOR to reach a wider audience.**

**This seminar is Eligible for 1.0 hours of structured ConEd Credits for OAA Members**

**Whether a BECOR member or not, you must register to attend this seminar.**

**We respectfully request that you register for this seminar no later than**

**Tuesday, February 14, at noon.**
